

## CUSTOM DESIGNED BAKEOUT BLANKETS ■

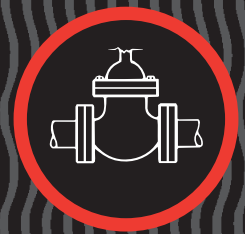

TANI Division has been designing removable, reusable insulation since the early 1970's. Our light weight bakeout blankets have been used in the ultra high vacuum market in a variety of industries. The usage of these insulation products are unlimited. Blanketing can be constructed for selected areas of the entire unit. The design can contour closely to the unit, or simply provide an encompassing tent for efficiency and personal protection. The blanket can come with a variety of features from snaps, velcro®, grommets, turn buckles, or draw strings.
